ARTICLE III REDEMPTION PROVISIONS

Section 3.01 Optional Redemption.

(a) <u>Optional Redemption of Series 2019A Bonds, Series 2019B Bonds and Series</u> <u>2019D Bonds</u>. The Series 2019A Bonds, the Series 2019B Bonds and the Series 2019D Bonds are not subject to optional redemption prior to May 1, 2029.

The Series 2019A Bonds are subject to redemption prior to their respective stated maturity dates, at the option of the Commission, from any source of available funds (other than mandatory sinking fund payments), as a whole or in part (and by lot if less than all of the Series 2019A Bonds of such maturity are then called for redemption), in Authorized Denominations, on any Business Day on or after May 1, 2029, at a redemption price equal to 100% of the principal amount of such Series 2019A Bonds called for redemption, together with accrued interest to the date fixed for redemption, without premium.

The Series 2019B Bonds are subject to redemption prior to their stated maturity date, at the option of the Commission, from any source of available funds (other than mandatory sinking fund payments), as a whole or in part (and by lot if less than all of the Series 2019B Bonds of such maturity are then called for redemption), in Authorized Denominations, on any Business Day on or after May 1, 2029, at a redemption price equal to 100% of the principal amount of such Series 2019B Bonds called for redemption, together with accrued interest to the date fixed for redemption, without premium.

The Series 2019D Bonds maturing on or after May 1, 2030 are subject to redemption prior to their stated maturity date, at the option of the Commission, from any source of available funds (other than mandatory sinking fund payments), as a whole or in part (and by lot if less than all of the Series 2019D Bonds of such maturity are then called for redemption), in Authorized Denominations, on any Business Day on or after May 1, 2029, at a redemption price equal to 100% of the principal amount of such Series 2019D Bonds called for redemption, together with accrued interest to the date fixed for redemption, without premium.

Any notice of optional redemption for the Series 2019A Bonds, the Series 2019B Bonds or the Series 2019D Bonds may be conditional and may be cancelled and annulled by the Commission for any reason on or prior to the date fixed for redemption. Such cancellation does not constitute an Event of Default under the Trust Indenture.

(b) Optional Redemption of Series 2019C Bonds. There is no Series Call Protection Date for the Series 2019C Bonds. The Series 2019C Bonds are subject to redemption prior to their respective stated maturity dates, at the option of the Commission, from any source of available funds, as a whole or in part (if less than all of the Series 2019C Bonds of such maturity are then called for redemption, on a pro-rata pass-through distribution of principal basis in accordance with the procedures set forth in Section 3.03 below), in Authorized Denominations, on any Business Day, at a redemption price equal to 100% of the principal amount of Series 2019C Bonds called for redemption, plus the Make-Whole Premium (as defined below), if any, together with accrued interest to the date fixed for redemption. Any notice of optional redemption for the Series 2019C Bonds may be conditional and may be cancelled and annulled by the Commission for any reason on or prior to the date fixed for redemption. Such cancellation does not constitute an Event of Default under the Trust Indenture.

For purposes of the foregoing paragraph, the following capitalized terms shall have the following meanings:

"Make-Whole Premium" means, with respect to any Series 2019C Bond to be redeemed, an amount calculated by an Independent Banking Institution (as defined below) equal to the positive difference, if any, between:

(1) The sum of the present values, calculated as of the date fixed for redemption, of:

(I) Each interest payment that, but for the redemption, would have been payable on the Series 2019C Bond or portion thereof being redeemed on each regularly scheduled Interest Payment Date occurring after the date fixed for redemption through the maturity date of such Series 2019C Bond (excluding any accrued interest for the period prior to the date fixed for redemption); plus

(II) The principal amount that, but for such redemption, would have been payable on the maturity date of the Series 2019C Bond or portion thereof being redeemed; minus

(2) The principal amount of the Series 2019C Bond or portion thereof being redeemed.

The present values of the interest and principal payments referred to in (i) above will be determined by discounting the amount of each such interest and principal payment from the date that each such payment would have been payable but for the redemption to the date fixed for redemption on a semiannual basis (assuming a 360-day year consisting of twelve (12) 30-day months) at a discount rate equal to the Comparable Treasury Yield plus (A) ten (10) basis points for the Series 2019C Bonds maturing May 1, 2020 through May 1, 2023; and (B) (15) basis points for the Series 2019C Bonds maturing May 1, 2029.

"Comparable Treasury Yield" means the yield which represents the weekly average yield to maturity for the preceding week appearing in the most recently published statistical release designated "H.15(519) Selected Interest Rates" under the heading "Treasury Constant Maturities," or any successor publication selected by the Independent Banking Institution that is published weekly by the Board of Governors of the Federal Reserve System and that establishes yields on actively traded United States Treasury securities adjusted to constant

maturity, for the maturity corresponding to the remaining term to maturity of the Series 2019C Bonds being redeemed. The Comparable Treasury Yield will be determined as of the 10th Business Day immediately preceding the applicable date fixed for redemption. If the H.15(519) statistical release sets forth a weekly average yield for United States Treasury securities that have a constant maturity that is the same as the remaining term to maturity of the Series 2019C Bonds being redeemed, then the Comparable Treasury Yield will be equal to such weekly average yield. In all other cases, the Comparable Treasury Yield will be calculated by interpolation on a straight-line basis, between the weekly average yields on the United States Treasury securities that have a constant maturity (y) closest to and greater than the remaining term to maturity of the Series 2019C Bonds being redeemed; and (z) closest to and less than the remaining term to maturity of the Series 2019C Bonds being redeemed. Any weekly average yields calculated by interpolation will be rounded to the nearest 1/100th of 1%, with any figure of 1/200th of 1% or above being rounded upward.

If, and only if, weekly average yields for United States Treasury securities for the preceding week are not available in the H.15(519) statistical release or any successor publication, then the Comparable Treasury Yield will be the rate of interest per annum equal to the semiannual equivalent yield to maturity of the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price (each as defined below) as of the date fixed for redemption.

"Comparable Treasury Issue" means the United States Treasury security selected by the Independent Banking Institution as having a maturity comparable to the remaining term to maturity of the Series 2019C Bonds being redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term to maturity of the Series 2019C Bonds being redeemed.

"Independent Banking Institution" means an investment banking institution of national standing which is a primary United States government securities dealer in the City of New York designated by the Commission (which may be one of the Underwriters). If the Commission fails to appoint an Independent Banking Institution at least thirty (30) days prior to the date fixed for redemption, or if the Independent Banking Institution appointed by the Commission is unwilling or unable to determine the Comparable Treasury Yield, the Comparable Treasury Yield will be determined by an Independent Banking Institution designated by the Trustee in consultation with the Commission.

Comparable Treasury Price" means, with respect to any date on which a Series 2019C Bond or portion thereof is being redeemed, either (a) the average of five (5) Reference Treasury Dealer quotations for the date fixed for redemption, after excluding the highest and lowest such quotations, and (b) if the Independent Banking Institution is unable to obtain five (5) such quotations, the average of the quotations that are obtained. The Commission shall select the maturities and specific interest rate of the Series 2019A Bonds, the Series 2019B Bonds and the Series 2019D Bonds to be optionally redeemed. Except as otherwise provided under the procedures of The Depository Trust Company, the initial securities depository for the Series 2019ABCD Bonds, if less than all of a maturity of the Series 2019A Bonds, the Series 2019B Bonds or the Series 2019D Bonds is to be optionally redeemed, the Series 2019A Bonds, the Series 2019B Bonds or the Series 2019D Bonds, as applicable, to be optionally redeemed shall be selected by lot in such manner as the Trustee shall determine. However, so long as the Series 2019C Bonds are in book-entry only form, the selection for redemption of such Series 2019C Bonds shall be made in accordance with the operational arrangements of DTC then in effect. Neither the Commission nor the Trustee shall provide any assurance or shall have any responsibility or obligation to ensure that DTC, the DTC participants or any other intermediaries allocate redemptions of the Series 2019C Bonds among beneficial owners on a pro-rata pass-through distribution of principal basis.
